Haloumi

Fresco halloumi is made in the traditional Cypriot style with generations of cheesemaking experience. It has a semi-firm, bouncy texture and is infused with flavoursome mint – it is perfect when grilled, fried, or even oven baked, making it wonderfully versatile and suitable for breakfast, lunch, or dinner menus.

Our vacuum sealed product is less salty than many alternatives on the market, holds its shape when cooked and boasts an exquisite flavour profile. Fresco Halloumi's quality has been recognised with Gold at the 2024 Australian DIAA Awards and Silver at the 2024 and 2025 Queensland DIAA Awards, and it continues to be praised by master chefs around the country.

Paneer is the most common type of cheese used in traditional cuisines from the Indian subcontinent. Fresco Paneer has a mild flavour and a dense, crumbly texture that pairs excellently with the bold, spicy flavours of Indian and South Asian dishes. Because it does not melt like many other cheeses, chunks can be stirred into soups or curries while remaining intact.

Fresco Paneer is also an award-winning cheese, receiving Gold at the 2024 Australian DIAA Awards and Silver at the 2024 and 2025 Queensland DIAA Awards.
